- Cloud Integration With Firebase
- PHP, JavaScript, HTML, CSS
- React Native
- Backend Development using Node.js and Express.js.
- Bootstrap
- Internet Of Things
- UI/UX Design With Figma And Prototyping

## About Me

Hi, my name is Richard Khoo. I hold a bachelor's degree in Informatics Engineering from Sekolah Tinggi Teknologi Indonesia Tanjung Pinang, graduating with cum laude honors (GPA 3.70). My expertise lies in web development, backend systems, cloud computing, and UI/UX design, with proficiency in tools like Figma for designing user-friendly interfaces. I am a graduate of Bangkit Academy 2024, focusing on the Cloud Computing learning path, where I collaborated on a final project integrating backend development with cloud infrastructure. I also have hands-on experience as a software developer through internships and enjoy working in a team, learning new technologies, and solving complex challenges.

## Education

Bachelor's degree, Teknik Informatika 2020 - 2024  
*Sekolah Tinggi Teknologi Indonesia Tanjungpinang*  
Skill Competencies : Mobile App (React Native), Back-end, Web Development And Internet Of Things., UI / UX Designer

## Experience

Bangkit Academy 2024 H1 February 2024 - June 2024  
*Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka*  
I Attended a 6-month training at Bangkit Academy, specializing in the Cloud Computing learning path. Collaborated in a team of six on a final project, "Tomato Diseases Detection App," where I and a teammate focused on backend development and cloud integration to process and deliver scan results seamlessly to the mobile development team

Internship March 2023 - December 2023  
*Ternak Ayam Pak Asun*  
I interned at Ternak Ayam Pak Asun as web development in creating websites, web-based managed goods data processing systems.
